REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: None of the references of record discloses or suggests, "...a guide roller moving mechanism for moving said guide roller in a direction substantially perpendicular to the running direction of the wire electrode so that the position of the contact of said power supply element with the wire electrode is changed."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Girardin in U.S. Patent No. 4,733,038 discloses moving a current supply element so that the position of contact between the current supply element and the wire electrode is changed. (This reference was inadvertently not considered in the Information Disclosure Statement of 20040708.)

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geoffrey S Evans whose telephone number is (571)-272-1174.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Dunn can be reached on (571)-272-1171. The fax phone number for the organization where this application or proceeding is assigned is (703)-872-9306.
